

O'Dalaigh's

Assuming you will have a house PA and mixer desk operated by an engineer then our requirements are as follows;

Drums.....to be miked up.....not essential but it would be helpful....fold back

Keyboards..... requires instrument line to mixer desk, vocal microphone and fold-back

Accordion.....requires instrument line to mixer desk, vocal microphone and fold-back.

Banjo.....requires instrument line to mixer desk, vocal microphone and fold-back

Bass guitar.....as above but can play direct through my own amp, vocal mike and fold-back.
